CORA

Cooperative Operations and Records Automation

Empowering Cooperatives through Digital Transformation

MOST COMMON PAIN POINT FOR COOP

Most Common Pain Points Among Cooperatives in Terms of Record Management and Accounting

Manual and Paper-Based Records

Reliance on paperwork leads to clutter, damage, and difficulty in retrieval.

Inaccurate and Incomplete Data

Human errors and missing information result in unreliable records and reports.

Time-Consuming Processes

Recording, searching, and reconciling data take too much time and effort.

Delayed Financial Reporting

Slow consolidation of data delays reports needed for decision-making and compliance.

Difficulty in Reconciliation

Mismatched records between books, bank, and members cause reconciliation problems.

Limited Access and Security

Records are hard to access remotely and are vulnerable to loss, theft, or damage.

Lack of Internal Controls

Weak control mechanisms increase the risk of errors, fraud, and unauthorized transactions.

Addressing these pain points through proper systems, digital tools, and capacity building leads to better records, accurate reporting, and stronger cooperatives.

Introduction

- **CORA** is a modern system designed to help cooperatives manage their operations efficiently.
- It integrates members, savings, loans, and accounting into one platform.

- **“Our system is built following standards and includes all required accounting, audit trail, security and reporting features**

Why Digital Transformation?

- **Weak Record Management**
  - **Manual books**
  - **Excel files**
  - **Fragmented systems**

Result:

- **inconsistent, incomplete, delayed data**
- Manual systems lead to errors, delays, and inefficiencies.

- **Digital systems provide speed, accuracy, and transparency and Facilitate easy compliance in reporting**

Core Features

- Member Management

Manage all your members — complete profiles, contributions, activities and history, dividends, patronage refund, share capital tracking

Savings Management

Deposit Tracking, withdrawal, real time status

Core Features

Loan Management - **loan tracking, interest computation, easy record of loan, retrieval of loan history, alert of delinquent loans, alert for loan dues**

- Accounting System- **daily management of journal entries/daily transaction, sales and expense record, easy generation of reports- financial statement, balance sheet etc.**

Point of Sales

- **Record you daily sales**
- **Built in Inventory Management**

Accounting System

General Ledger

Journal Entries

Voucher Management

Financial Statements

CDA-compliant structure

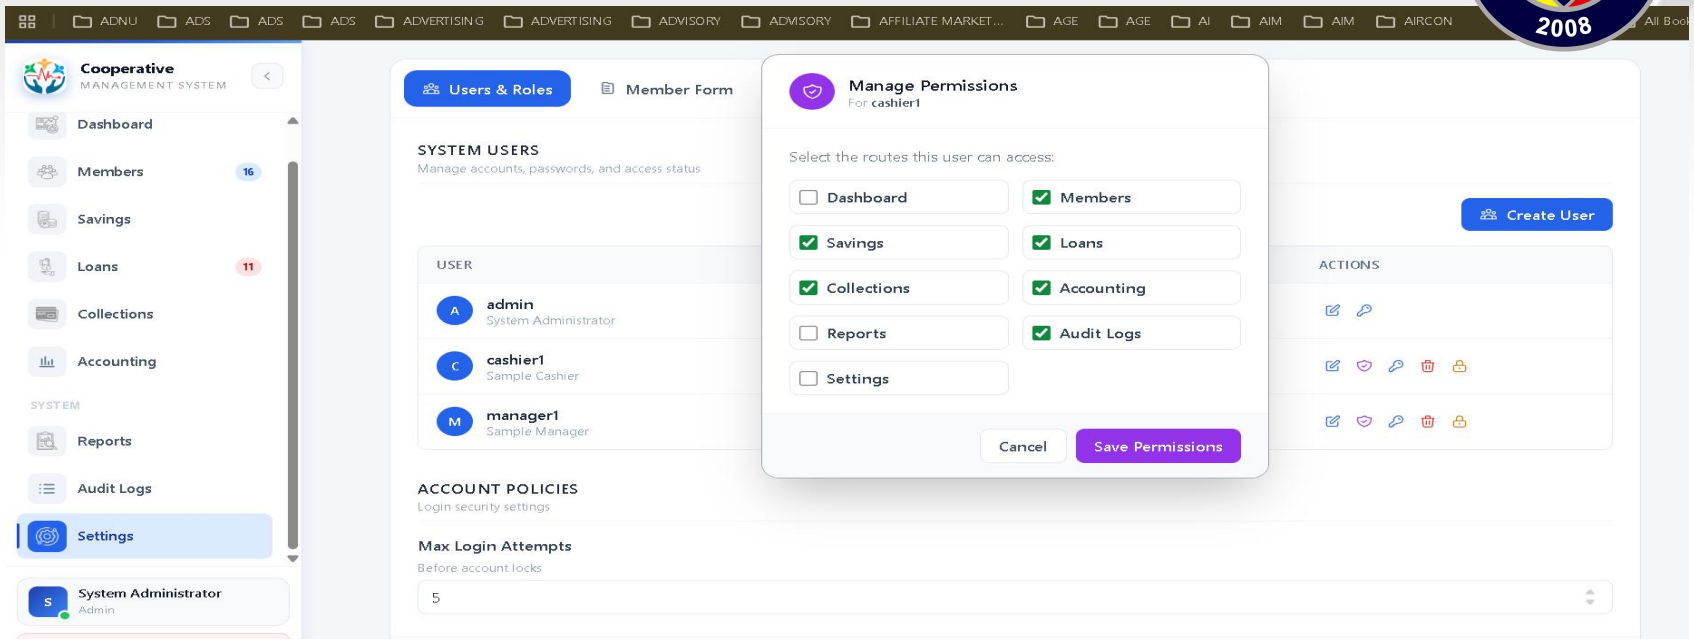
Core Features

Reports & Analytics - **BIR aligned Report/ CDA compliance report generation, real time generation of report and retrieval in one click**

Audit Logs- **monitor system activity through its auto log reports**, **traceable log ins**

Security- **permission based, with auto back updata, option to online system for cloud storage**

Security & Control



- Role-based access
- Audit trail
- Data security
- Controlled permissions

You control who and what can be accessed in the system

Security Logs

System Audit Logs

Complete audit trail of all system activities

Total Logs	Last 24 Hours	Last 7 Days	Last 30 Days
55

CDA Compliance Mandatory Reports

- ✓ **Statement of Financial Condition**
- ✓ Statement of Operations
- ✓ **Member Share Capital**
- ✓ Loan Portfolio
- ✓ **Delinquency Report**

Benefits of CORA

- Improved efficiency
- Accurate accounting
- Better decision making
- Transparency
- Faster operations

Importance of Digital Systems

Digital systems help cooperatives:

- Scale operations
- Reduce risks
- Improve member trust
- Stay competitive

Why Choose CORA

Designed for Philippine cooperatives

- Easy to use
- Reliable
- Scalable
- Cost Friendly

TWO TYPES OF CORA

- ✓ Offline-first system (No internet required)
- ✓ Installed locally on desktop or laptop
- ✓ Fast processing and real-time reports
- ✓ Secure local database (data stays within the cooperative)
- ✓ Multi-user capable via LAN (optional)
- ✓ Automatic backup support (external drive)
- ✓ User access control and permissions

DESKTOP/LAPTOP SPECS

MINIMUM SPECS FOR SMALL COOP	MID SIZE -MULTI USER
Laptop or Desktop Processor: Intel Core i3 (8th Gen) or AMD Ryzen 3 RAM: 8 GB Storage: 256 GB SSD Operating System: Windows 10 or Windows 11 (64-bit) Display: 1366 × 768 resolution or higher Ports: At least 2 USB ports (for printer, backup drive, etc.) Network: LAN or WiFi (for backups or optional network use)	Processor: Intel Core i5 (10th Gen+) or AMD Ryzen 5 RAM: 16 GB Storage: 512 GB SSD Operating System: Windows 11 Pro (64-bit) Display: 1920 × 1080 (Full HD) Network: Gigabit LAN Backup Device: External Hard Drive (1 TB)

ONLINE CORA

- ✓ Online 24/7
- ✓ Web based
- ✓ with own landing page(1 pager)
- ✓ All Features
- ✓ Multiple User

Special Rate for Coop

Offline System: Php 12,000.00/year – Limited Feature, (For Cam Sur Client)

Online System: Php 36,000.00/Year

- cloud storage
- One Pager Landing Page
- Own Domain
-accessible 24/7

ONBOARDING PROCESS

ACTIVITY	# DAYS	DOCUMENT
1. Sign up/Contract / Payment	1 Day	Signed Contract/ OR
2. Project kickoff and planning	1 Day	Documentation/Minutes
3. Data sorting, organization	2-5 Days	Turn over data
4. Data entry,migration and configuration	3-Days	Data configured
5. Installation of system	1/2 day	System Installed/ Pictures/Turn over paper
6. User Training	2 - 3 hours	Minutes of Training
7. Testing	3 days	User Feedback
8. Support - via anydesk/online/messenger
